

Website Development Agreement

Aga Produce Company

Prepared by: Angel Vargas

May 4, 2026

1 Project Overview

This document outlines the scope, requirements, timeline, and payment structure for the development of a professional website for Aga Produce. It also details the information required from the client to successfully deliver a website that aligns with their business goals.

The document covers key elements including design preferences, client requirements and features, the development process, revision meetings, domain purchasing, hosting plans and pricing, as well as payment terms and conditions.

2 Scope of Work

The website will include the following components:

- Home page with company overview
- Product or services section
- Contact page
- Image gallery (if applicable)
- Mobile-responsive design

(Any additional features will be noted during the meeting)

3 Client Requirements

To ensure timely completion, Aga Produce will need to provide the following:

- High-quality images of products, facilities, or operations
- Business logo (vector format preferred)
- Written content (or approval for drafted content)
- Contact information (phone, email, address)
- Any specific design preferences or examples

4 Development Process

The project will follow these steps:

1. Initial consultation and requirement gathering
2. Wireframe/design draft
3. Development and implementation
4. Client review and revisions
5. Final deployment

5 Timeline

The estimated timeline for completion is:

- Start Date: (TBA)
- First Draft: (TBA)
- Final Delivery: (TBA)

Note: Delays in receiving required materials may extend the timeline.

6 Payment Terms

The total project cost will be structured as follows:

- Initial deposit: 50%
- Remaining balance upon completion

Accepted payment methods: Zelle, Check, and Direct Deposit.

7 Domain and Hosting

The domain and hosting will be handled as follows:

- Domain: [Client purchases / Developer assists / Developer manages]
- Hosting: [Client-managed / Developer-managed]

A detailed explanation of domain registration, hosting options, and associated costs will be provided during the initial consultation. This discussion will include technical considerations, recommended platforms, and ownership responsibilities.

This section is intended to provide a general overview to guide the upcoming discussion and ensure alignment on how domain and hosting will be managed throughout the project.

8 Revisions and Support

- Includes (X) rounds of revisions (*number will be discussed in the meeting*)
- Optional maintenance plans can be discussed

9 Approval

By proceeding with this project, both parties agree to the terms outlined in this document.
